The SPEEDSTILE MOTION combines security and aesthetics all in one stylish product.

- Ultra high speed access with seamlessly integrated motor drive technology.
- Exported worldwide.

APPLICATIONS
- Suited for applications requiring ultra high speed access and medium levels of security.
- Used extensively in applications such as office receptions, airports, universities, health clubs and railways.

DESIGNED FOR:
- Interior and exterior installations
- Severe operating conditions

AVAILABLE CONFIGURATIONS
- Narrow lane (550mm), standard lane (700mm) and wide lane (900mm) - suitable for special needs access such as wheelchairs.
- Single lane and double lane

FEATURES
- Designed by professional engineers.
- Cutting edge technology used in both the design and manufacture.
- Ultra-heavy-duty high speed motor drive and gearbox.
- Intelligent motor - tamper detection feedback.
- Built-in intelligent PLC controller.
- Motion detection sensor array – dynamic following of the pedestrian through the Speedstile Express.
- Highly sophisticated anti-tamper detection:
  - Tailgating
  - Unauthorized direction
  - Crawling
- Safety - a series of detectors are used to prevent closing when a person or object is in the closing envelope.

TECHNICAL SPECIFICATIONS
